ID	BR01
Summary	Ukrainian text remains untranslated in the bottom left corner of the footer when switched to russian.
Pre-conditions	Open the website exe.ua
Steps	<ol style="list-style-type: none"> Switch the website language to russian. Scroll to the bottom of the page. Observe the text in the bottom left corner of the footer.
Expected result	The text should be translated into russian after switching website language to russian.
Actual result	Ukrainian text remains untranslated after switching the website language to russian.
Post-conditions	The site remains in russian language mode, but the footer displays one untranslated message in Ukrainian.
Environment	Version 133.0.6943.98 (Official Build) (arm64), Google Chrome
Severity	Low
Priority	Low
Type of bug	Localization
Attachment	<p>The screenshot shows the footer of the EXE.UA website. At the top, there's a navigation bar with links like "Главная", "О нас", "Контакты". Below it, a large section titled "23 лет на рынке Украины. 10+ лет IT-технологиями" (23 years on the market in Ukraine. 10+ years in IT technologies) describes the company's experience. The footer itself includes the EXE.UA logo, a brief description of services ("Компания занимается разработкой и внедрением программного обеспечения"), and a sidebar with a "СТРАНИЦЫ" (PAGES) menu containing links like "О нас и услугах", "Карьера и услуги", "Сертификаты", "Контакты", and "Обратный звонок".</p>

Summary	Orange color phone appears in filtered results when "Pink" color is selected in "Smartphone" category.
Pre-conditions	Open the website exe.ua
	User is on the product listing page under the "Smartphone" category
Steps	1. In the color filter section on the left, select the "pink" color filter.
	2. Wait for the product list to update.
	3. Check the color of the displayed phones.
Expected result	Only phones with the pink color should be displayed in the filtered results.
Actual result	One orange phone appears in the filtered list together with pink ones.
Post-conditions	The "pink" filter remains active, and the orange phone is still shown among the results.
Environment	Version 133.0.6943.98 (Official Build) (arm64), Google Chrome

Summary	Phone number partially hidden under white space during window resizing at breakpoint 991px to 767px
Pre-conditions	Open the website exe.ua
	User is on the homepage.
Steps	1. Resize the window to a width between 991px and 767px.
	2. Observe the phone number under the top menu.
Expected result	The phone number should remain fully visible during window resizing.
Actual result	The phone number becomes partially hidden under the white space area during resizing.
Post-conditions	The phone number is still partially hidden when the window is resized to smaller breakpoints.
Environment	Version 133.0.6943.98 (Official Build) (arm64), Google Chrome
Severity	Minor
Priority	Low
Type of bug	UI
Attachment	 <p>The screenshot shows the top navigation bar of the EXE.UA website. The phone number (800) 604-000 is partially hidden by a white space area. The number is displayed in a green box, and the white space area is highlighted with a red rectangle. The website is in Ukrainian, and the language is set to 'Укр'.</p>
	Affected Element: <div class="top_header_contacts ">
